SEALED BIDS FOR CANONSBURG-HOUSTON JOINT AUTHORITY

2013 WASTEWATER TREATMENT PLANT UPGRADES PROJECT (RE-BID)

CONTRACT ONE - GENERAL CONSTRUCTION
CONTRACT TWO - ELECTRICAL
CONTRACT THREE - HVAC/PLUMBING

A general description of the work includes, but is not limited to the following:

Contract One - General Construction: Demolition of existing tanks, equipment and piping. Installation of a new raw sewage pump station building, equipment, connecting piping, and appurtenances. Installation of new screens and equipment, screenings and grit handling building, grit collection tanks and equipment, primary clarifiers and equipment, sludge thickener equipment, pumps, meters, piping and appurtenances. Purchase of panels/controls of various equipment and VFDs for pumps. Installation of new odor control systems for the new raw sewage pump station and new headworks facility. Site work including excavation, backfill, debris removal, installation of site piping, fence, access road modifications, sidewalks, paving restoration, interior and exterior painting, and other miscellaneous work for a complete installation. Coordination with Electrical and HVAC/Plumbing Contractors. An alternate bid will include a new concrete pipe tunnel, connection piping and appurtenances.

Contract Two - Electrical: Demolition of electrical distribution equipment, conduit, wire and miscellaneous control panels. Installation of new motor control centers, control panels, and associated conduit and wire. Power/control of new equipment and pumps, including VFD systems. Relocation/replacement of incoming power feeds to the plant and coordination with local electrical utility. Installation of process control systems and updating existing process control functions. SCADA system upgrades and integration. Coordination with General Construction and HVAC Contractors for connection of new equipment provided under Contracts One and Three. Contract also includes site work, painting of conduit and other miscellaneous work items necessary for a complete installation.

Contract Three - HVAC/Plumbing: Demolition of existing HVAC systems, equipment and piping. Installation of new HVAC systems including hot water unit heaters, make-up air units, air conditioning units, ductwork, fans, and HVAC controls. Coordination with General Construction and Electrical Contractors. Contract includes site work, painting, controls and other miscellaneous work items necessary for a complete installation.

Pennsylvania Prevailing Minimum Wage Rates will apply to all work on this project. All materials and equipment must meet the requirements of the Pennsylvania Steel Products Procurement Act.
